Week beginning 29.04.19

Last week the children enjoyed celebrating St George’s Day. We saw a variety of princess and prince crowns being made, shields being designed and children acting out the story. The children tried hard developing their fine motor skills to decorate their St George’s day biscuit. The children loved the circle time game ‘there was a princess long ago’ and were eager to build a castle and trap for the dragon ready to slay him!

We have been focusing on number assessments also. This week the children will continue to learn about how to look after our planet. The children took a keen interest in recycling last week and so we will continue this theme; learning about what can be recycled and why it is important. The children have enjoyed competing against Mrs Whitehead to win the phonics race! The children will be spending the week learning about nature and art. They will explore different natural materials to recreate pictures, go on a nature hunt around the school grounds, make natural paintbrushes and paint, play a variety of positional language games and listen to stories based on the outdoors.
